| <b>A. Communicable, maternal, perinatal and nutritional conditions</b><br><b>A. Infectious and parasitic diseases</b><br>1. Tuberculosis<br>2. HIV/ and other Sexually transmitted diseases (STDs)<br>2. a. Sexually transmitted diseases (STDs) excluding HIV<br>a. Syphilis<br>b. Chlamydia<br>c. Gonorrhoea<br>d. Trichomoniasis<br>e. Other STDs<br>2. b. HIV/AIDS<br>a. HIV resulting in TB<br>b. HIV resulting in other diseases<br>4. Diarrhoeal diseases<br>5. Childhood-cluster diseases<br>a. Whooping cough<br>b. Diphtheria<br>c. Measles<br>d. Tetanus<br>4. Meningitis<br>5. Encephalitis<br>6. Hepatitis<br>a. Acute hepatitis A<br>b. Acute hepatitis B<br>hepatitis B (acute and liver cancer)<br>c. Acute hepatitis C<br>d. Acute hepatitis E<br>99. Other Infectious Diseases<br>7. Parasitic and vector diseases<br>a. Malaria<br>b. Trypanosomiasis<br>c. Chagas disease<br>d. Schistosomiasis<br>e. Leishmaniasis<br>f. Lymphatic filariasis<br>g. Onchocerciasis<br>h. Cysticercosis<br>i. Echinococcosis<br>j. Leprosy<br>k. Dengue<br>l. Trachoma<br>m. Yellow fever<br>n. Rabies<br>10. Intestinal nematode infections<br>a. Ascariasis<br>b. Trichuriasis<br>c. Hookworm disease<br>d. Food-borne trematodes<br>11. Other infectious diseases<br>7. Respiratory infections<br>1. Lower respiratory infections<br>2. Upper respiratory infections<br>3. Otitis media<br>8. Maternal conditions<br>1. Maternal haemorrhage<br>2. Maternal sepsis<br>3. Hypertensive disorders of pregnancy<br>4. Obstructed labour<br>5. Abortion<br>6. Other maternal conditions<br>9. Neonatal conditions<br>1. Preterm birth complications<br>2. Birth asphyxia and birth trauma<br>3. Neonatal sepsis and infections<br>4. Other neonatal conditions<br>E. Nutritional deficiencies<br>1. Protein-energy malnutrition<br>2. Iodine deficiency<br>3. Vitamin A deficiency<br>4. Iron-deficiency anaemia<br>5. Other nutritional deficiencies | <b>B. Malignant neoplasms</b><br>1. Mouth and oropharynx cancers<br>a. Lip and oral cavity<br>b. Nasopharynx<br>c. Other pharynx<br>2. Oesophagus cancer<br>3. Stomach cancer<br>4. Colon and rectum cancers<br>5. Liver cancer<br>6. Pancreas cancer<br>7. Trachea, bronchus and lung cancers<br>8. Melanoma and other skin cancers<br>a. Malignant skin melanoma<br>b. Non-melanoma skin cancer<br>9. Breast cancer<br>10. Uterine cancer<br>10. Cervix uteri cancer<br>11. Corpus uteri cancer<br>12. Ovary cancer<br>13. Prostate cancer<br>14. Testicular cancer<br>15. Kidney, renal pelvis and ureter cancer<br>16. Bladder cancer<br>17. Brain and nervous system cancers<br>18. Gallbladder and biliary tract cancer<br>19. Larynx cancer<br>20. Thyroid cancer<br>21. Mesothelioma<br>22. Lymphomas, multiple myeloma<br>a. Hodgkin lymphoma<br>b. Non-Hodgkin lymphoma<br>c. Multiple myeloma<br>23. Leukaemia<br>24. Other malignant neoplasms<br><b>C. Cardiovascular diseases</b><br>1. Rheumatic heart disease<br>2. Hypertensive heart disease<br>3. Ischaemic heart disease<br>4. Stroke<br>5. Cardiomyopathy, myocarditis, endocarditis<br>6. Other cardiovascular diseases | <b>D. Other Chronic</b><br>B. Other neoplasms<br>C. Diabetes mellitus<br>D. Endocrine, blood, immune disorders<br>1. Thalassemias<br>2. Sickle cell disorders and trait<br>3. Other haemoglobinopathies and haemolytic anaemias<br>4. Other endocrine, blood and immune disorders<br>E. Mental and substance use disorders<br>E.1. Mental Health disorders (non-substance use)<br>1. Depressive disorders<br>a. Major depressive disorder<br>b. Dysthymia<br>2. Bipolar disorder<br>3. Schizophrenia<br>6. Anxiety disorders<br>7. Eating disorders<br>8. Autism and Asperger syndrome<br>9. Childhood behavioural disorders<br>a. Attention deficit/hyperactivity syndrome<br>b. Conduct disorder<br>10. Idiopathic intellectual disability<br>11. Other mental and behavioural disorders<br>E.2. Substance use<br>4. Alcohol use disorders<br>5. Drug use disorders<br>a. Opioid use disorders<br>b. Cocaine use disorders<br>c. Amphetamine use disorders<br>d. Cannabis use disorders<br>e. Other drug use disorders<br>F. Neurological conditions<br>1. Alzheimer disease and other dementias<br>2. Parkinson disease<br>3. Epilepsy<br>4. Multiple sclerosis<br>5. Migraine<br>6. Non-migraine headache<br>7. Other neurological conditions<br>G. Sense organ diseases<br>1. Glaucoma<br>2. Cataracts<br>3. Uncorrected refractive errors<br>4. Macular degeneration<br>5. Other vision loss<br>6. Other hearing loss<br>7. Other sense organ disorders<br>I. Respiratory diseases<br>1. Chronic obstructive pulmonary disease<br>2. Asthma<br>3. Asthma/Other respiratory diseases<br>J. Digestive diseases<br>1. Peptic ulcer disease<br>2. Cirrhosis of the liver<br>3. Appendicitis<br>4. Gastritis and duodenitis<br>5. Paralytic ileus and intestinal obstruction<br>6. Inflammatory bowel disease<br>7. Gallbladder and biliary diseases<br>8. Pancreatitis<br>9. Other digestive diseases<br>K. Genitourinary diseases<br>1. Kidney diseases<br>a. Acute glomerulonephritis<br>b. Chronic kidney disease due to diabetes<br>c. Other chronic kidney disease<br>2. Benign prostatic hyperplasia<br>3. Urolithiasis<br>4. Other urinary diseases<br>5. Infertility<br>6. Gynecological diseases<br>L. Skin diseases<br>M. Musculoskeletal diseases<br>1. Rheumatoid arthritis<br>2. Osteoarthritis<br>3. Gout<br>4. Back and neck pain<br>5. Other musculoskeletal disorders<br>N. Congenital anomalies<br>1. Neural tube defects<br>2. Cleft lip and cleft palate<br>3. Down syndrome<br>4. Congenital heart anomalies<br>5. Other chromosomal anomalies<br>6. Other congenital anomalies<br>D. 12. Sudden infant death syndrome<br>O. Oral conditions<br>1. Dental caries<br>2. Periodontal disease<br>3. Edentulism<br>4. Other oral disorders | <b>E. Injuries</b><br>A. Unintentional injuries<br>1. Road injury<br>2. Poisonings<br>3. Falls<br>4. Fire, heat and hot substances<br>5. Drowning<br>6. Exposure to mechanical forces<br>7. Natural disasters<br>8. Other unintentional injuries<br>B. Intentional injuries<br>1. Self-harm<br>2. Interpersonal violence<br>3. Collective violence and legal int. |
